

The Winchester Tile Collection

Ryan's®

Papyrus 300mm bricks IM-0012796 (see page 46) with Clover Ogee mouldings IM-0023855 (see page 28)

Welcome

Made up of several smaller ranges, The Winchester Tile Collection offers wall tiles in a variety of formats and mouldings, all with unique undulating glazes that add depth and character to a space.

rustic bricks in a range of muted colours 'Origin'
8-11

contemporary bricks in natural colours 'Panorama'
12-19

lustre glazed tiles & mouldings 'Metropolitan'
20-32

crackle glazed tiles & mouldings 'Arcadian'
34-43

rich gloss tiles & mouldings 'Cosmopolitan'
44-61

patterns & illustrations on Cosmopolitan base tiles
62-87

elegant designs in heritage colours 'Artisan'
88-99

pretty repeat patterns on Artisan base tiles
100-107

traditional tiles and mouldings 'Classic'
108-119

traditional decorated designs on Classic base tiles
1120-129

important information
130-135

The art of beautiful tiles

As England's leading producer of hand crafted tiles, we continue to design and produce our tiles in Devon's historic city of Exeter.

Our team of experienced and highly skilled artists, designers and crafts people create tile patterns and glazes that you'll adore for years to come.

The alchemy of tile making

It all starts with ‘bisques’, blank canvases of moulded clay. It’s what happens next that dictates the end result: firing temperatures and frequency; different glazes and how they react to heat and to each other; hand painting, screen printing and finishing – this is tile making at its finest.

Origin

– modern rustic –

A collection of chunky, rustic brick tiles that feature muted, milky glazes over a dark base. The bisque interacts with the smooth glaze to create beautiful variations in texture and tone.

Origin

Change the look by trying a different tile layout or add contrast with a dark grout

240 x 60 x 12mm (2⅜" x 9⁷⁄₁₆" x ½")

Sand Smooth

IM-0000434

Shell Smooth

IM-0007000

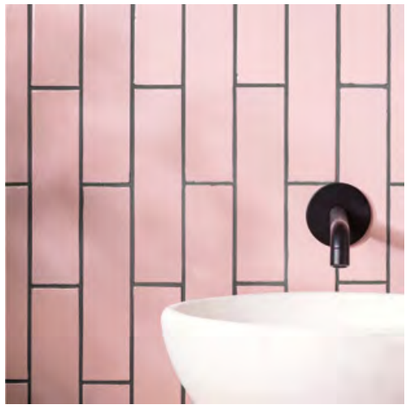
Cloud Smooth

IM-0020126

Frost Smooth

IM-0018349

Blush Smooth (shown opposite with white grout)



IM-0023801

Suitable for use in wet areas

Blush Smooth

Panorama

– a striking finish –

A rainbow of hues from subtle neutrals to daring blues, with uneven surfaces and a stunning depth and variation of colour. These tiles have a soft glaze which allows for the feel of the bisque to come through each layer, resulting in an artisanal speckled look.

Panorama

Why not try a diagonal or herringbone pattern for a dynamic look

240 x 60 x 12mm (2⅜" x 9⅞" x ½")

Metropolitan

– rustic lustre –

Tiles and their mouldings in a unique lustrous finish, which glistens with a pearl-like sheen. Choose from a variety of pastel tones or try teaming two shades together to create a delicate yet striking two-tone effect.

200mm Brick

200 x 100mm (4” x 8”)
A contemporary brick format that looks great in larger areas

Ogee Moulding

200 x 30mm (1³⁄₁₆” x 8”)
Ideal to accompany the 200mm Brick

Field Tile

130 x 130mm (5⅛” x 5⅛”)
The classic square tile

Torus Moulding

130 x 43mm (1¹¹⁄₁₆” x 5⅛”)
Perfectly proportioned to match the Field Tile

Metropolitan

Chalk

Torus Moulding IM-0002898
130 x 43mm / 1¹¹⁄₁₆" x 5⅛"

Cosmopolitan Decoratives

– patterns and prints –

An array of decorated and patterned tiles, from bold motifs to delicate details, there's a style for every taste. These tiles look beautiful when used across an expanse of space or singularly as a drop-in feature when teamed with their coordinating bases from the Cosmopolitan collection.

Chateaux

130 x 130mm (5⅛" x 5⅛")
Rich patterns in vivid colours, inspired by rugs and pottery from around the globe

Botanique NEW

130 x 130mm (5⅛" x 5⅛")
Pretty decorative tiles with 4 levels detail, so you can have as much or as little pattern as you like

Fabrique

200 x 100mm (4" x 8")
Pretty hand drawn patterns, recreated in soft-toned glazes

Illustrated Designs

130 x 130mm (5⅛" x 5⅛")
Drawn and painted motifs in a range of subjects, all on pale backgrounds

Manoir

130 x 130mm (5⅛" x 5⅛")
Geometric designs in reactive glazes for truly unique tiles

Botanique

More or less?

Botanique tiles look best when randomly mixed, and with 4 levels of detail available in each design it's easy to vary the density of the pattern. Go full-on for a bold look or incorporate plain tiles for a lighter touch (examples below) the choice is yours! The examples shown below are also applicable to Botanique Montagne and Botanique Paradis designs.

Artisan

– inspired by nature –

Artisan comprises soft colours with a timeless appeal. Evolved from the process of refining raw clay, pouring and pressing, moulding and shaping. Every piece is carefully crafted and skilfully finished. Artisan consists of 12 gloss glaze colours and six crackled glazes in field tile, half tile and brick as well as some decorative options.

See page 98-99 for dimensions, colour options and product codes

Classic

– rich glossy glazes –

The charm of all things hand moulded, hand painted or hand finished, is that no two pieces are likely to be identical. There's a wealth of choice, whether you are decorating a kitchen, bathroom, cloakroom, hallway, garden room or utility area.

How many tiles will you need?

Sizes and coverage

Once you have decided on your tiles, calculate how many you will need by measuring the area to be tiled.
Recommended grout gaps vary depending on personal taste and the look you wish to achieve, and also the uneven nature of the tile edge. Generally, the more rustic the base, the wider the grout gap.

De combien de carreaux aurez-vous besoin?
Une fois que vous avez choisi vos carreaux, calculez la quantité dont vous aurez besoin en mesurant la surface à carreler. Les écarts de joint recommandés varient en fonction des goûts personnels et de l'apparance que vous souhaitez réaliser, mais aussi de l'irrégularité des bords des carreaux. En général, plus les carreaux sont rustiques, plus l'écart de joint sera grand.

Wie viele Fliesen brauchen Sie?
Wenn Sie sich für eine bestimmte Fliese entschieden haben, können Sie ausrechnen, wie viele Fliesen benötigt werden, indem Sie den zu verarbeitenden Bereich messen. Die empfohlenen Fugenabstände richten sich nach Ihren persönlichen Vorlieben dem gewünschten Erscheinungsbild, werden aber auch durch die ungleichmäßigen Fliesenkanten bestimmt. Generell gilt: umso rustikaler die Fliese, desto größer die Fuge.

Hoeveel tegels hebt u nodig?
Zondra u uw tegels hebt uitgekozen, kunt u berekenen hoeveel u er nodig hebt door het te betegelen oppervlak op te meten. De aanbevolen voeglijnen zijn afhankelijk van persoonlijke smaak en het eindresultaat waarnaar u op zoek bent. Ook de oneffen aard van de tegeluiteinden spelen een rol. In het algemeen geldt dat hoe rustieker de tegels zijn, hoe breder de voeglijn is.

Сколько понадобится плиток?
Выбрав требуемую плитку, следует измерить необходимую площадь, чтобы подсчитать, сколько понадобится плиток. Рекомендуемое межплиточное расстояние зависит от личных предпочтений. Кроме того, следует учитывать неровность между краями плитки. В целом, чем более неровная основа плитки, тем шире межплиточное расстояние.

258mm	10 ⅛"	3.8	1.2

Please allow an extra 10% for cutting and wastage. Measurements above and quoted throughout are for the front face of the tile/moulding. Please note that the front face of Artisan Field tiles and Half tiles is marginally smaller than the back face, whereas the moulding and skirting pieces have the same dimension for both front and back facings. Work sizes for products in this brochure are as follows:
EN ISO 10545-2, EN14411 Annex K, Length and Width
N > 15 cm. = +/- 0.5% of the work size
7 cm < N < 15 cm. = +/- 0.75 mm of the work size
This does not apply to Winchester Artisan mouldings and Winchester Classic mouldings as these are slip cast. In these cases every effort is made to target the work size.
Recommended grout gaps are based on the following Cosmopolitan/Arcadian/Metropolitan: 3-4mm, Classic 3-6mm, Artisan: 2mm, Elements: 2mm

The front face of the Artisan Field tiles, Half tiles, brick tiles and decorated tiles is marginally smaller than the back face, whereas the moulding and skirting pieces have the same dimension for both front and back facings. To ensure that tiles and mouldings are aligned when they are included in the same installation, we recommend using 1mm spacers when fixing Field tiles, Half tiles, brick tiles and decorated tiles, and 2mm spacers when fixing mouldings, trims and skirting pieces. The 1mm spacers must be pushed in so that they make contact with the back face edges of the tiles.

We always recommend that any tiling is carried out by an experienced professional tiler. For full fixing information, please refer to our Fixing Guide on **www.ryans.nl**.

Veuillez toujours ajouter 10 % pour tenir compte des découpes et déchets éventuels. Les mesures ci-dessous et les autres mesures citées ailleurs concernent la face avant des carreaux/moulures. Notez que la face avant des carreaux unis Artisan est légèrement plus étroite que leur dos, tandis que les dimensions des moulures et des plinthes restent les mêmes sur le devant comme au dos. Les dimensions et marges de tolérance pour les produits de cette brochure sont comme suit:
EN ISO 10545-2, EN14411 Annex K, longueur et largeur
N > 15 cm. = +/- 0.5% de la taille réelle
7 cm < N < 15 cm. = +/- 0.75 mm de la taille réelle
Ceci n'est pas applicable aux moulures de la gamme Winchester Artisan et Winchester Classic étant fabriquées avec un moule.
Dans ces cas, tous les efforts sont fait pour respecter la taille réelle.
Les écarts de joints recommandés se basent sur les mesures suivantes : Cosmopolitan/Arcadian/Metropolitan : 3-4 mm, Classic : 3-6 mm, Artisan : 2 mm, Elements: 2mm

La face avant des carreaux unis, demi-carreaux, carreaux effet brique et carreaux décorés Artisan est légèrement plus étroite que leur dos, tandis que les dimensions des moulures et des plinthes restent les mêmes sur le devant comme au dos. Pour aligner correctement les carreaux et les moulures dans une même installation, nous vous recommandons d'utiliser des entretoises de 1 mm lorsque vous posez les carreaux unis, demi-carreaux, carreaux effet brique et carreaux décorés, et des entretoises de 2 mm lorsque vous posez les moulures, les listels et les plinthes. Les entretoises de 1 mm doivent être disposées de manière à toucher les bords du dos des carreaux.

Nous vous recommandons de toujours faire installer vos carreaux par un carreleur professionnel et expérimenté. Pour des informations complètes sur l'installation, reportez-vous à notre Guide d'installation **sur www.ryans.nl**.

Bitte planen Sie zusätzliche 10 % für Verschnitt und Reststücke ein. Die obigen und andere in der Broschüre angegebenen Maße gelten für die Vorderseite von Fliese / Formstück. Bitte beachten Sie, dass die Vorderseite der Artisan Grund- und Halbfliesen geringfügig kleiner als die Rückseite ist, während Formstücke und Sockelleisten die gleichen Dimensionen sowohl für Vorder- und Rückseite aufweisen. Werkmaße für Produkte in dieser Broschüre sind wie folgt:
EN ISO 10545-2, EN14411: Anhang K, Länge und Breite
N > 15 cm. = +/- 0.5% des Werkmaßes
7 cm < N < 15 cm. = +/- 0,75 mm des Werkmaßes
Dies gilt nicht für Winchester Artisan Formstücken und Winchester Classic Formstücken, da sie geschlickerte Produkte sind. Wir versuchen jedoch auch hier das Werkmaß zu erzielen. Empfohlene Fugenabstände beruhen auf:
Cosmopolitan/Arcadian/Metropolitan: 3-4 mm, Classic: 3-6 mm, Artisan: 2 mm
Elements: 2mm

Die Vorderseite der Artisan Grund-, Halb-, Ziegel- und Dekorfliesen ist geringfügig kleiner als die Rückseite, während Formstücke und Sockelleisten die gleichen Dimensionen sowohl für Vorder- und Rückseite aufweisen. Um sicherzustellen, dass Fliesen und Formteile korrekt ausgerichtet sind, empfehlen wir die Verwendung von 1 mm Fugenkreuzen beim Verlegen von Grund-, Halb-, Ziegel- und Dekorfliesen. Für Formstücke, Profile und Sockelleisten verwenden Sie bitte 2 mm Fugenkreuze. Die 1 mm Fugenkreuze müssen so eingesetzt werden, dass sie Kontakt mit den rückseitigen Kanten der Fliesen haben.

Wir empfehlen stets, dass unsere Fliesen von einem erfahrenen und professionellen Fliesenleger verlegt werden. Für vollständige Informationen zur Verlegung beachten Sie bitte unsere Verlegeanleitung unter **www.ryans.nl**.

Bestel 10% extra voor snijresten en afval.
Bovenstaande en opgegeven maten zijn altijd van de voorkant van de tegel/het profiel. De voorkant van de vierkante tegel en de halve tegel van Artisan is enigszins kleiner dan de achterkant. De profiel- en randtegels hebben wel dezelfde afmetingen aan de voor- en achterzijde. De maattolerantie voor de producten in deze brochure zijn als volgt;
EN ISO 10545-2, EN14411 Annex K, lengte en breedte
N > 15 cm. = +/- 0.5% van de nominale maat
7 cm < N < 15 cm. = +/- 0.75 mm van de nominale maat
Deze maattolerantie geldt niet voor de Winchester Artisan strippen en Winchester Classic strippen, aangezien deze vormen gegoten zijn.
In deze gevallen doen wij ons uiterste best om de nominale maat aan te houden.
De aanbevolen voeglijnen zijn gebaseerd op het volgende: Cosmopolitan/Arcadian/Metropolitan: 3 - 4mm, Classic: 3 - 6 mm,
Artisan: 2 mm, Elements: 2mm

De voorkant van de vierkante tegel, de halve tegel, de bakstenen tegel en de siertegel van Artisan is enigszins kleiner dan de achterkant. De profiel- en randtegels hebben wel dezelfde afmetingen aan de voor- en achterzijde. Om ervoor te zorgen dat de tegels en de profieltegels op elkaar aansluiten als ze deel uitmaken van dezelfde installatie, raden we aan dat u tegelkruisjes gebruikt van 1 mm bij het zetten van veldtegels, halve tegels, bakstenen tegels en siertegels, en afstandsstukken van 2 mm bij het zetten van profieltegels, lijsttegels en randtegels. De tegelkruisjes van 1 mm moeten zodanig worden aangebracht dat ze in contact zijn met de uiteinden van de achterkant van de tegels.

We raden altijd aan dat tegels worden gelegd door een ervaren, professionele tegelzetter. Raadpleeg **onze installatiegids op www.ryans.nl voor** alle informatie.

Допуск на отходы должен составлять 10%. Размеры, указанные выше и приведенные в данной брошюре, предназначены только для передней поверхности плитки/лепнины. Просьба обратить внимание, что передняя поверхность облицовочной плитки и полуплитки коллекции Artisan незначительно меньше, чем задняя поверхность, при этом передняя и задняя поверхность лепнины и бордюров одинакова. Рабочие размеры продукции в этой брошюре следующие:
EN ISO 10545-2, EN14411 Приложение K, Длина и Ширина
N > 15 cm. = +/- 0.5% от рабочего размера
7 cm < N < 15 cm. = +/- 0.75 mm от рабочего размера
Это не относится к Winchester Artisan и Винчестер Classic молдингам так как эти молдинги отливные. В этих случаях делается все возможное, чтобы достичь рабочий размер.
Рекомендуемое межплиточное расстояние:
Cosmopolitan/Arcadian/Metropolitan: 3-4 мм, Classic: 3-6 мм, Artisan: 2 мм, Elements: 2мм

Передняя поверхность облицовочной плитки, полуплитки, черепичной и декоративной плитки незначительно меньше, чем задняя поверхность, при этом передняя и задняя поверхность лепнины и бордюров одинакова. Чтобы выровнять плитку и бордюры, рекомендуем использовать 1-миллиметровые разделители при укладке облицовочной плитки, полуплитки, черепичной и декоративной плитки, и 2-миллиметровые разделители при укладке бордюров, каймы и краев. 1-миллиметровые разделители следует вдавить таким образом, чтобы они соприкасались с задней гранью плитки.

Настоятельно рекомендуем, чтобы укладка плитки производилась профессиональным плиточником. См. наше Руководство по укладке на сайте **www.ryans.nl для получения полной** информации.

Important Information

Pattern repeats

Repeating Patterns - Artisan decorated tiles. Please note that decorative tiles are made individually and may have slight differences between them. They may not line up with each other exactly if placed together, but the overall effect will be stunning. The designs on these decorative tiles are subtly asymmetrical. To ensure a pleasing repeating pattern, carefully lay the tiles out before fixing them to the wall, to make sure that the patterns on the four edges match each other.

Motifs Répétitifs - Carreaux décorés Artisan. Notez que les carreaux décoratifs sont fabriqués individuellement et pourront présenter de légères différences d'un carreau à l'autre. Ils ne s'aligneront pas toujours parfaitement lorsque vous les poserez ensemble mais l'effet général n'en sera pas moins saisissant. Les motifs de ces carreaux décoratifs sont subtilement asymétriques. Pour que votre motif répétitif soit harmonieux, disposez vos carreaux soigneusement sur le sol avant de les installer au mur pour vérifier que les motifs en bordure de chaque carreau soient assortis aux carreaux adjacents.

Rapport-Designs - Artisan Dekorfliesen
Bitte beachten Sie, dass Dekorfliesen einzeln gefertigt werden und leichte Unterschiede aufweisen können. Unter Umständen kommt es vor, dass sie nicht exakt in einer Linie liegen. Dennoch ist die Gesamtwirkung beeindruckend. Die Designs dieser Dekorfliesen sind leicht asymmetrisch. Um ein attraktives wiederholendes Muster zu gewährleisten, legen Sie die Fliesen vor der Befestigung an der Wand sorgsam aus, um sicherzustellen, dass die Muster auf den vier Kanten zueinander passen.

Patronen Herhalen - Artisan decoratieve tegels
De decorateive tegels worden per stuk gemaakt. Er kan dus sprake zijn van kleine verschillen tussen de tegels. Als ze samen worden gelegd, dan sluiten ze wellicht niet precies op elkaar aan. Het overkoepelende effect is daarentegen prachtig. De ontwerpen op deze siertegels worden gekenmerkt door een subtiele asymmetrie. Om een patroon met mooie herhalingen te maken, legt u de tegels neer voordat u ze bevestigt tegen de muur. Zorg ervoor dat de patronen van de vier hoeken op elkaar aansluiten.

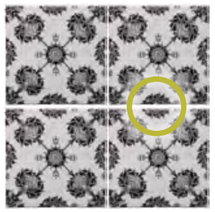
Повторяющиеся узоры - Декоративная плитка Artisan
Просьба обратить внимание, что декоративная плитка изготавливается индивидуально, поэтому между плитками могут быть незначительные различия. Такие плитки могут не сходиться в точности, но общее впечатление будет потрясающим. Конструкция декоративной плитки немного ассиметрична. Чтобы получился красивый узор, следует разложить плитку на отдельной поверхности до ее укладки, чтобы узоры на всех четырех углах плитки соответствовали друг другу.

Kutahya / Topkapi

- This is correct as all 4 tiles are the right way up
- Cette disposition est correcte car les 4 carreaux sont dans le bon sens
- Richtig, da alle 4 Fliesen korrekt ausgerichtet sind
- Dit is juist, want alle vier de tegels zijn naar boven gericht
- Верно – все 4 плитки расположены правильно

- This is incorrect as the patterns on the sides do not line up
- Cette disposition est incorrecte : les motifs sur les côtés ne sont pas alignés
- Falsch. Die Muster verlaufen an den Seiten nicht in einer Linie
- Dit is onjuist, want de patronen aan de zijkanten sluiten niet op elkaar aan
- Неверно – узоры по бокам не сходятся

Pasha



- This is correct as all 4 tiles are the right way up
- Cette disposition est correcte car les 4 carreaux sont dans le bon sens
- Richtig, da alle 4 Fliesen korrekt ausgerichtet sind
- Dit is juist, want alle vier de tegels zijn naar boven gericht
- Верно – все 4 плитки расположены правильно

- This is incorrect as the patterns top and bottom do not line up
- Cette disposition est incorrecte : les motifs ne sont pas alignés
- Falsch. Die Muster verlaufen an den Seiten nicht in einer Linie
- Dit is onjuist, want de patronen aan de boven- en onderkant sluiten niet op elkaar aan
- Неверно – узоры сверху и снизу не сходятся

Symbol Symbole Symbol Symbool Символ	Key Signification Bedeutung Betekenis Всмысле	Special Notes Notes Spéciales Besondere Hinweise Speciale Aantekeningen Особые примечания
	Dry areas only Convient aux endroits secs uniquement Nur für trockene bereiche Alleen droge muren Только сухое помещение	These tile colours are made from copper-based glazes and are all prone to discolouration by the very mild acids often found in the home, for example lemon scented soaps, wine, orange juice and fruit. To avoid discolouration, wash these tiles with clean water only and wipe them dry. **Tiles and mouldings in these colours are recommended for dry areas only and should not be installed near kitchen or bathroom sinks or in shower cubicles.** If they do get wet for any reason, always wipe any excess residue from the tile surface immediately with warm water and then dry off. Ces couleurs sont des émaux à base de cuivre qui risquent tous de se décolorer au contact des acides même les plus doux que l'on retrouve couramment dans les intérieurs, par exemple les savons parfumés au citron, le vin, le jus d'orange et de fruits, vinaigre blanc. Pour éviter toute décoloration, lavez-les à l'eau uniquement et séchez-les avec un torchon. **Il est conseillé d'installer les carreaux et moulures de ces couleurs uniquement dans les zones sèches, et d'éviter de les poser à proximité des éviers ou dans les cabines de douche.** S'ils deviennent humides ou mouillés pour quelque raison que ce soit, rincez immédiatement leur surface à l'eau tiède puis séchez-les. diese Fliesen haben kupferhaltigen Glasuren und neigen bei Kontakt zu haushaltüblichen Säuren, wie z. B. bestimmten Reinigungsmitteln (z.B. Seifen mit Zitrusduft), Wein, Orangensaft und Früchten, zu Verfärbungen. Um Verfärbungen zu vermeiden, reinigen Sie diese Fliesen nur mit klarem Wasser und reiben Sie diese nach der Reinigung sofort trocken. **Fliesen und Formstücke in diesen Farben dürfen nur in trockenen Bereichen eingesetzt werden und eignen sich nicht für die Installation in der Nähe von Küchenspülen oder in Duschkabinen.** Sollten diese Produkte nass werden, waschen Sie Rückstände immer sofort mit warmem, klarem Wasser ab und reiben Sie die Oberfläche trocken. Deze kleuren zijn geproduceerd met glazuren op koperbasis en kunnen verkleuren als gevolg van de zeer milde zuren die vaak worden aangetroffen bij mensen thuis, bijvoorbeeld in schoonmaakmiddel met citroengeur, wijn, sinaasappelsap en fruit. Om deze verkleuring te vermijden, wast u deze tegels alleen met schoon water en droogt u ze af. **Tegels en profielen in deze kleuren worden alleen aanbevolen voor droge plekken en dienen niet in de buurt van de keukengootsteen of in de douchecabine te worden gezet.** Als ze toch nat worden, dan veegt u het eventuele vuil onmiddellijk van de tegels af met warm water en droogt u ze af. Плитка этих оттенков покрыта глазурью на медной основе, поэтому возможно изменение цвета при контакте со слабыми кислотами, которые часто используются в быту, например, мыло с лимонным запахом, вино, апельсиновый сок и фрукты. Чтобы избежать изменения цвета, плитку следует мыть только чистой водой, а затем вытирать насухо. **Плитку и лепнину этих оттенков рекомендуется использовать только в сухих помещениях, вдали от кухонных умывальных раковин и душевых.** Если плитка по какой-либо причине намокла, следует незамедлительно промыть теплой водой, а затем вытереть насухо.
	Wet and dry walls Murs zones humides Trocken- und nassbereiche Natte en droge muren влажные и сухие стены	Suitable for kitchens, bathrooms and showers Convient aux zones humides, telles que les douches, salles de bain, crédence de cuisine geeignet für Küchen, Badezimmer, Duschen und Dampfbäder Geschikt voor muren in keukens, badkamers en douches. Мы не рекомендуем использовать плитку с трещинами и кракелюрами для установки вблизи душевых систем с повышенным давлением.
	Wet and dry walls, but not power showers Murs zones humides mais pas dans une douche à haute pression Für nassbereiche aber Nicht für power-duschen geeignet Natte en droge muren maar niet geschikt in de buurt van 'power showers'	We do not recommend that crazed and crackle tiles are used for power showers, i.e. showers with a very high pressure generated by a forceful pump. Couleurs susceptibles au faïençage Ne pas installer dans une douche à haute pression (type spa) Wir empfehlen nicht, Fliesen mit Haarrissen oder Craquelé in Power-Duschen bzw. Duschen mit sehr hohem Wasserduck zu installieren. Geschikt voor muren in keukens, badkamers en douches maar niet geschikt voor douches met een 'power shower' (douche kraan met hoge druk doormiddel van een krachtige pomp).
	Crazing / Crackle glazes Couleurs susceptibles au faïençage Neigung zu haarrissbildung / craquelé Craquelé en haarscheurtjes	• Highly glazed ceramic tiles may craze with time and no guarantee can be given against this occurrence across all Winchester Tile Company tiles and mouldings. This is an inherent part of our hand finished tiles and adds to their rustic nature. • Arcadian and Artisan Crackle tiles and mouldings are deliberately crackled (as a result of a specific glazing process) to give an aged appearance. • You may notice these tiles may make a 'crackling' noise as they acclimatise to the temperature of your home and may continue to do so for a short while after installation. This is perfectly normal and is part of the charm of these tiles. ALL CRAZED AND CRACKLE TILES MUST BE SEALED BEFORE CUTTING OR FIXING **For use in both dry and wet areas, all crazed/crackle tiles should be sealed with an impregnator before cutting and fixing. This will help prevent dust from the red tile body staining the crazing/crackles during cutting and prevent grout stains (or other pollutant stains) during installation. Impregnating also allows for the easy cleaning of grout from the crazing/crackles after installation. Tiles should then be re-impregnated after the grout residue has been removed, then again after 90 days from installation, with a further treatment after one year. This is because glazes may continue to crackle/craze for several months, and so each new crackle/craze line becomes unsealed. Suitable impregnators are LTP Crackle Glaze Protector and Fila MP90.** • Les carreaux en céramique fortement vitrifiés peuvent se craqueler au fil du temps. Nous ne pouvons offrir aucune garantie contre cette éventualité. Il s'agit d'une caractéristique essentielle de nos carreaux finis à la main, qui renforce en outre leur aspect rustique. • Veillez toujours à bien sceller les carreaux craquelés avant de passer à l'étape des joints, ce afin de faciliter le nettoyage des craquelures après avoir terminé le jointoiement. Vous risqueriez sinon d'avoir une coloration dans les craquelures dûe aux pigments du joint. Veuillez voir ci-dessous. • Vous remarquerez peut-être que les carreaux Arcadian et Artisan Crackle émettent un son de « craquelure » alors qu'ils s'acclimatent à la température ambiante de votre intérieur, un phénomène qui pourra se poursuivre pendant quelques temps après leur installation. Cela est tout à fait normal et fait partie du charme de ces carreaux. TOUTES LES CARREAUX CRAQUELÉS DOIVENT ÊTRE SCELLÉS AVANT LA COUPE OU LA POSE **Pour une utilisation dans les zones sèches et humides, tous les carreaux craquelés ou craqués doivent être scellés avec un imperméabilisant avant la coupe et la fixation. Cela aidera à empêcher la poussière rouge du carreau de tacher les craquelures pendant la coupe et à prévenir les taches de colis de jointoiement (ou d'autres taches polluantes) pendant l'installation. L'imperméabilisation permet également de nettoyer facilement le coulis des craquelures après l'installation. Les carreaux doivent ensuite être réimprégnés après l'élimination des résidus de coulis, puis à nouveau après 90 jours à compter de l'installation, avec un traitement supplémentaire un an après. En effet, les émaux peuvent continuer à craqueler pendant plusieurs mois, et ainsi chaque nouvelle craquelure devient descellée. Nous vous conseillons d'utiliser les produits imperméabilisants LTP Crackle Glaze Protector ou Fila MP90.** • Hochglasierte Fliesen können mit der Zeit Haarrisse bilden. Dies liegt in der Natur unserer handgefertigten Keramik und unterstreicht den rustikalen Charme der Fliesen Haarrisse können bei allen Fliesen und Formteilen der Winchester Tile Company auftreten und sind kein Reklamationsgrund. • Bei den Arcadian Fliesen und Formstücke sowie Artisan Crackle Fliesen und Formstücken werden in einem speziellen Glasurverfahren diese Risse bewusst erzeugt. Dieser sog. Craquelé-Effekt gibt den Fliesen ein gewollt „gealtertes" Aussehen. • Sie werden nach der Installation von Arcadian und Artisan Crackle eventuell ein „Knistern" wahrnehmen, welches durch die Anpassung der Fliesen an die Temperatur Ihres Hauses erzeugt wird. Dieses Phänomen kann auch noch für bestimmte Zeit nach der Installation anhalten. Dies ist völlig normal und Teil des Charms dieser Fliesen. ALLE FLIESEN MIT HAARRISSEN ODER CRAQUELÉ MÜSSEN VOR DEM SCHNEIDEN ODER VERLEGEN IMPRÄGNIERT WERDEN **Für die Verwendung in Trocken- und Nassbereichen sollten alle Fliesen mit Haarrissen oder Craquelé vor dem Schneiden und Verlegen mit einem Imprägniermittel versiegelt werden. Dadurch wird verhindert, dass der Staub des roten Fliesenkörpers beim Schneiden auf die Haarrisse oder Craquelé der Fliesen abfärbt, und es werden Flecken durch das Verfugen (oder Flecken durch andere Schadstoffe) beim Verlegen vermieden. Die Imprägnierung ermöglicht auch eine einfache Reinigung der Haarrisse oder Craquelé von dem Fugenmörtel nach der Verlegung. 90 Tage nach der Verlegung sollten die Fliesen erneut imprägniert werden, und nach einem Jahr ist eine weitere Behandlung notwendig. Der Grund dafür ist, dass sich Risse in Glasuren ueber mehrere Monate lang bilden können und jeder neue Riss ist somit unversiegelt. Geeignete Imprägniermittel sind LTP Crackle Glaze Protector und Fila MP90.** • Sterk geglazuurde keramische tegels kunnen na verloop van tijd haarscheurtjes gaan vertonen. We kunnen dienaangaande geen enkele garantie bieden. Dit is een eigenschap van onze handgemaakte tegels en draagt bij aan hun rustieke aard. • Arcadian tegels en profielen en de Artisan Crackle tegels en profielen bevatten opzettelijk craquelé (dit is het gevolg van een specifiek glazuurproces), zodat ze er antiek uitzien. • U merkt wellicht dat de tegels van Arcadian en Artisan Crackle een craquelégeluid maken als ze zich aanpassen aan de temperatuur van uw huis. Hiervan kan enige tijd na het zetten sprake zijn. Dit is absoluut normaal en maakt deel uit van de charme van deze tegels. ALLE GECRAQUELEERDE TEGELS EN TEGELS MET HAARSCHEURTJES MOETEN GEÏMPREGNEERD WORDEN ALVORENS TE SNIJDEN EN ZETTEN **Alle gecraqueleerde tegels en tegels met haarscheurtjes dienen voor het snijden en zetten te worden geïmpregneerd. Dit zal helpen voorkomen dat het stof van het rode biscuit, de haarscheurtjes tijdens het snijden verkleurt. Ook zal het de tegels tijdens de installatie beschermen tegen voegmiddel- en andere vlekken. Impregneren zorgt er ook voor dat voegmiddel makkelijker van de haarscheurtjes verwijderd kan worden na de installatie. Nadat voegresten zijn verwijderd, moeten gecraqueleerde tegels en tegels met haarscheurtjes opnieuw geïmpregneerd worden en dan wederom na 90 dagen en vervolgens opnieuw na een jaar. De reden hiervoor is dat het craquelé̈proces van de tegels enkele maanden duurt waardoor de tijdens dit proces ontstane scheurtjes ook geïmpregneerd moeten worden. Geschikte impregneermiddelen zijn Lithofin KF Impregneermiddel of Fila MP90.** • На глянцевой поверхности керамической плитки со временем могут образоваться трещины. Гарантии на такие случаи не предоставляются. Это особенность обработанной вручную плитки, что придает ей уникальный внешний вид. • Arcadian плитка и молдинг и Artisan Crackle плитка и молдинг намеренно производят с кракелюрами (результат специфического процесса глазирования), чтобы предать старинный вид. • Вы можете обратить внимание на то что, непродолжительный период времени после укладки, плитка коллекций Arcadian и Artisan Crackle издает ' треск' по мере акклиматизации к температуре помещения. Это является естественной реакцией и именно такая особенность придает нашей продукции своеобразное очарование. ВСЕ ПЛИТКИ С ТРЕЩИНАМИ И КРАКЕЛЮРАМИ ДОЛЖНЫ БЫТЬ ГЕРМЕТИЗИРОВАНЫ ПЕРЕД РЕЗКОЙ ИЛИ УСТАНОВКОЙ **Для использования как в сухих, так и во влажных помещениях, все плитки с трещинками и кракелюрами должны быть обработаны пропиткой перед резкой и установкой . Это поможет предотвратить попадание пыли с красного корпуса плитки на кракелюр во время резки и предотвратит появление пятен от затирки (или других загрязняющих веществ) во время укладки. Пропитка также позволяет легко очистить затирку с кракелюра после укладки. Плитку следует повторно пропитать после удаления остатков затирки, затем еще раз через 90 дней после укладки и еще раз через год. Это связано с тем, что глазурь может продолжать трескаться/растрескиваться в течение нескольких месяцев, поэтому каждая новая линия трещин/растрескивания становится негерметичной. Подходящими пропитками являются LTP Crackle Glaze Protector и Fila MP90.**

Please refer to the Fixing Guide at www.ryans.nl for more information.
Pour obtenir des instructions complètes l'installation, veuillez vous reporter au Guide de fixation Winchester sur www.ryans.nl avant de procéder à l'installation.
Vollständige Installationshinweise, einschl. Empfehlungen zu Kleber und Fugenmasse finden Sie in der Anleitung zur Verlegung von Winchester Fliesen unter www.ryans.nl
Voor alle installatieaanwijzingen, waaronder tips voor het voegen en voor de lijm, raadpleegt u voor het zetten de Winchester installatiegids, die te vinden is op www.ryans.nl.
Перед тем, как укладывать плитку, следует ознакомиться с полными инструкциями по укладке, которые приведены в Руководстве по укладке Winchester на сайте www.ryans.nl

Important Information

Suitability. NB Winchester wall tiles are not suitable for floors or external use. They are not suitable work surfaces. If they are installed as such, they will show signs of wear and surface scratching.

Manufacturing Standards. Where applicable, all Winchester tiles are manufactured and tested to European Standard EN14411.

Dimensions. All dimensions shown throughout the brochure are nominal; actual dimensions for individual tiles may vary from these figures. Please note, some reference images of tiles are not in proportion to reference images in other sections.

Colour Variation and Shading. The surfaces of Winchester tiles undulate gently, allowing natural shading to occur. These distinctive yet subtle variations in shade within each tile, moulding and border mean no two pieces are ever identical which gives a wonderful impression of depth to tiled areas, adding to their beauty and charm. There may also be subtle shade variations between the background colour on decorative tiles and any co-ordinating/matching field tile.

Before making your choice it is always advisable to ask your Winchester supplier to show you samples.

Before fixing, it is very important to lay the tiles out in good light to ensure that any shade difference is evenly distributed. No liability for shading issues can be accepted after installation.

Artisan Crackle Colour Variation. The hue of crackle glazed Artisan tiles may differ from gloss versions of the same colour.

Glazing. Glaze may not completely reach the top edges of Torus and Ogee mouldings, leaving areas of the base exposed. This is completely normal and we cannot be guaranteed against this occurring.

Cleaning. Wash down tiled surfaces with either clean water or a neutral i.e. not acidic or alkaline detergent. Dry off and polish with a dry duster. We do not recommend steam cleaners or steam mops to clean our tiles. Steam cleaning may remove or render ineffective any sealer that has been applied, leaving the tiles unprotected.

Installation. For full installation instructions, including grouting and adhesive recommendations, please refer to the Winchester Fixing Guide available at www.ryans.nl before commencing your installation.
In the USA please follow the recommendations of a reputable adhesive manufacturer and always comply with the American National Institution (ANSI) specifications as set out in the Handbook for Ceramic Tile Installation published by the Tile Council of North America.

Photography. Owing to variations in studio lighting and printing inks, the tile colours shown in this brochure may differ slightly from those of the actual tiles. Before making your choice it is always advisable to ask your Winchester supplier to show you samples.

Limits of Liability.
the manufacturer accepts no liability for the faulty installation of its tiles. In the case of any claim relating to the tiles themselves, the manufacturer's liability, to the extent permitted by law, is limited to either the replacement of the product or a refund of the cost of the product, and does not extend to cover any consequential loss. Claims must be reported within seven working days from receipt of the tiles. Tiles must be inspected prior to installation and claims cannot be considered after the tiles have been installed. Please be advised that installation constitutes acceptance of the quality, colour, texture, shade and size of tiles.

the manufacturer warrants that its tiles conform to their description and are fit for their purpose. the manufacturer makes no other express or implied warranty as to fitness or suitability of the products for particular installations. We extend no guarantees, express or implied, as to wear resistance or maintenance procedures. Please note, the use of certain acid based cleaning products may cause some of the tiles to react and change in character.

Informations Essentielles

Usages. Les faïences Winchester ne conviennent pas pour une pose au sol ou en extérieur. Ils sont uniquement destinés à une pose murale, en intérieur. Nous vous déconseillons de poser les carreaux Winchester sur les surfaces de travail car ils seront sensibles à l'usure et aux rayures. Certains carreaux ne conviennent pas aux zones humides, comme indiqué ci-dessous.

Fabrication. Lorsque cela est possible, les carreaux Winchester sont fabriqués et testés selon la norme européenne EN14411.

Dimensions. Toutes les dimensions indiquées dans cette brochure sont nominales ; les dimensions réelles des carreaux individuels peuvent être différentes de celles indiquées. Notez également que certaines images de référence ne sont pas aux mêmes proportions que les images de référence des autres sections.

Variations de couleur et teinte. La surface des carreaux Winchester ondule délicatement, créant ainsi naturellement des nuances de couleur. Ces variations de teinte, à la fois distinctives et subtiles, sur chaque carreau, moulure et bordure, confèrent à chacun de ces éléments une apparence unique. Elles donnent ainsi une merveilleuse impression de profondeur aux surfaces carrelées et accentuent encore leur charme et leur beauté. De subtiles variations peuvent aussi apparaître entre la couleur de fond des carreaux décoratifs et tout carreau uni correspondant.

Avant de faire votre choix, il est toujours préférable de demander à votre revendeur Winchester de vous montrer des échantillons.

Avant de poser vos carreaux, il est important de les étaler sous une lumière. Nous n'accepterons aucune responsabilité pour les problèmes liés à la teinte une fois les carreaux installés.

Émaillage. Il est peu probable que les moulures Tore/ Ogee soient émaillées sur tout le long du bord supérieur. Cela signifie que la base du carreau peut apparaitre le long du bord supérieur et nous ne pouvons pas garantir que cela ne soit le cas.

Couleurs brillantes ou craquelées Artisan. Veuillez noter qu'une couleur de même nom pourra présenter une légère variation de teinte selon si elle est brillante (Gloss) ou craquelée (Crackle).

Nettoyage. Nettoyez les surfaces carrelées à l'eau propre ou bien avec un détergent neutre (ni acide, ni alcalin). Séchez et frottez avec un chiffon non pelucheux.
Nous ne recommandons pas les nettoyeurs à vapeur ou les vadrouilles à vapeur pour nettoyer nos carreaux. Le nettoyage à la vapeur peut éliminer/rendre inefficace tout scellant qui a été appliqué, laissant les carreaux sans protection.

Photographie. L'éclairage en studio et les encres utilisées pour l'impression peuvent affecter les couleurs des carreaux présentés dans ce catalogue. Avant de faire votre choix, il est toujours préférable de demander à votre revendeur Winchester de vous montrer des échantillons.

Responsabilité.
le fabricant n'accepte aucune responsabilité si ses carreaux ne sont pas installés correctement. En cas de plainte concernant les carreaux mêmes, la responsabilité du fabricant, en conformité avec la loi, se limite au remplacement ou au remboursement complet du produit et ne couvre aucune perte indirecte. Toute réclamation doit être effectuée dans les sept jours suivant la réception des carreaux. Les carreaux doivent être inspectés avant installation. Aucune réclamation ne sera prise en compte une fois les carreaux installés. Veuillez noter que l'installation des carreaux représente l'acceptation de leur qualité, couleur, texture, teinte et taille.

le fabricant garantit que ses carreaux sont conformes à leur description et conviennent à l'usage indiqué. Ryan's ne garantit en aucun cas, expressément ou implicitement, la conformité des produits à des installations particulières. Nous ne formulons aucune garantie, expresse ou implicite, vis-à-vis de la résistance à l'usure ou des procédures d'entretien.

Veuillez noter que l'utilisation de certains produits nettoyants à base d'acide peut provoquer des réactions sur certains carreaux et en modifier les caractéristiques.

Wichtige Infomationen

Eignung. Winchester-Wandfliesen eignen sich nicht für Böden oder Außenbereiche. Sie sind nur für Innenwände geeignet. Wir empfehlen nicht, dass Winchester Fliesen als Arbeitsflächen installiert werden. Wenn sie auf Arbeitsflächen verlegt werden, zeigen sich schnell Anzeichen von Verschleiß und Oberflächenkratzer. Einige sind nicht für Nassräume geeignet, siehe unten.

Herstellung. Sofern zutreffend, werden alle Winchester Fliesen gemäß der Europäischen Norm EN14411 hergestellt.

Abmessungen. Bei allen Maßangaben in diesem Katalog handelt es sich um Nennwerte; die tatsächlichen Maße einzelner Fliesen können etwas abweichen. Bitte beachten Sie, dass das Bildmaterial in diesem Katalog nicht das reelle Größenverhältnis widerspeiegelt. So kann die Größe der Fliesen auf einem Bild nicht zwangsläufig mit den Fliesen eines anderen Bildes verglichen werden.

Farbabweichungen und farbnuancen. Die Oberfläche der Kollektionen Winchester verläuft leicht wellenförmig, sodass natürliche Farbnuancen erzeugt werden. Diese charakteristischen Abweichungen des Farbtons in jeder Fliese, jedem Formstück oder jeder Bordüre schaffen einen wunderbaren Eindruck von Tiefe, der die natürliche Schönheit dieser Fliesen zusätzlich betont. Auch Ebenso können Dekorfliesen im Ton leicht von Grundfliesen der selben Farbe abweichen.

Es ist stets ratsam, Ihren Winchester Händler zu bitten, Ihnen Muster zu zeigen, bevor Sie Ihre Auswahl treffen.

Vor dem Verlegen der Fliesen müssen diese unbedingt unter guten Lichtverhältnissen lose ausgelegt werden, damit etwaige Farbunterschiede gleichmäßig verteilt werden können. Wir können keine Haftung für eventuelle Farbprobleme nach der Installation übernehmen.

Glasierte kanten. Es ist unwahrscheinlich, dass die oberen Kanten unserer Torus / Ogee Formteile vollständig glasiert sind. Die Farbe der Scherbe kann eventuell an dieser Stelle sichtbar sein. Dies stellt kein Reklamationsgrund dar.

Artisan hochglanz- und craquelé-giasur-farben. Beachten Sie bitte, dass geringfügige Farbunterschiede zwischen Gloss und Crackle (Hochglanz- und Craquelé-Glasur-Farben) mit dem gleichen Namen existieren.

Reinigung. Geflieste Flächen entweder mit klarem Wasser oder einem neutralen Reinigungsmittel (d. h. weder saures noch alkalisches Mittel) abwaschen. Mit einem trockenen Staubtuch abtrocknen und polieren. Wir empfehlen keine Dampfreiniger oder Dampfmopps zur Reinigung unserer Fliesen. Die Dampfreinigung kann vorhandene Versiegelungen entfernen/unwirksam machen aufgebracht wurden, wodurch die Fliesen ungeschützt blieben.

Fotografien. Aufgrund von Abweichungen in Studiobeleuchtung und Druckfarben, können die, in diesem Katalog dargestellten Fliesenfarben, leicht von den Farben der tatsächlichen Fliesen abweichen. Es ist stets ratsam, Ihren Winchester Händler zu bitten, Ihnen Muster zu zeigen, bevor Sie Ihre Auswahl treffen.

Haftungsbeschränkung. der Hersteller übernimmt für
die fehlerhafte Installation der Fliesen keine Haftung. Sollte es Reklamationen bezüglich der Fliesen selbst geben, dann beschränkt sich die gesetzliche Haftung von Winchester Tile lediglich auf den Artikelaustausch oder Kostenrückerstattung. Weitere Schäden werden nicht abgedeckt. Reklamationen müssen innerhalb von sieben Arbeitstagen nach Erhalt der Fliesen eingereicht werden. Fliesen müssen vor der Installation kontrolliert werden. Eine Reklamation nach der Installation ist nicht möglich.

Bitte beachten Sie, dass Sie durch die Installation Qualität, Farbe, Textur, Farbe und Größe der Fliesen akzeptieren.

der Hersteller gewährleistet die beschreibungs- und zweckgemäße Fabrikationsausführung der Fliesen. der Hersteller gibt keine weiteren ausdrücklichen oder impliziten Garantien
hinsichtlich Eignung der Produkte für besondere Installationsarten. Wir geben weder ausdrücklich noch implizit eine Garantieverlängerung auf Abnutzungsverhalten oder Wartungsarbeiten.

Die Verwendung von säurebasierten Reinigungsprodukten kann bei einigen Fliesen Reaktionen und Veränderungen im Erscheinungsbild hervorrufen.

Belangrijke Informatie

Geschiktheid. Winchester wandtegels zijn niet geschikt voor vloeren en buitengebruik. Ze zijn alleen bedoeld voor binnenmuren. We raden niet aan dat de Winchester tegels worden gebruikt voor het aanrechtblad. Als ze worden gebruikt voor aanrechtbladen, dan zullen tekenen van slijtage en krassen zichtbaar zijn. Enkele zijn niet geschikt voor natte oppervlakken: zie hieronder.

Productie. Voor zover van toepassing, zijn alle Winchester tegels geproduceerd in overeenstemming met Europese Richtlijn EN14411.

Afmetingen. Alle in de brochure vermelde afmetingen zijn nominaal. De werkelijke afmetingen van afzonderlijke tegels kunnen afwijken van deze cijfers. De verhouding van sommige referentieafbeeldingen van tegels in de brochure verschilt van die van de afbeeldingen in andere secties.

Kleurvariatie en nuancering. Winchester tegels hebben oppervlakken die enigzins kunnen 'golven', zodat een natuurlijke nuancering kan optreden. Deze opmerlijke en subtiele variaties zorgen er voor dat de tegels nooit precies gelijk zijn. Hierdoor krijgen betegelde oppervlakken een gevoel van diepte, wat bijdraagt aan een charmant eindresultaat. Er kan ook sprake zijn van subtiele kleurschakeringen tussen de achtergrondkleur van de siertegels en coördinerende/ bijpassende effen tegels.

Voordat u uw keuze maakt, is het altijd raadzaam om uw Winchesterleverancier te vragen om monsters.

Leg de tegels neer op een goed verlichte plek voordat u ze zet, zodat verschillende kleurnuances goed worden verdeeld. We zijn niet aansprakelijk voor problemen met de kleurnuancering na het zetten.

Glanzende en gecraqueleerde kleuren van Artisan. Er kan sprake zijn van kleine kleurverschillen tussen glanzende en gecraqueleerde kleuren met dezelfde naam.

Glazuur. Het is onwaarschijnlijk dat de Arcadian/Metropolitan Torus/ Ogee mouldings op de bovenste rand geglazuurd zijn.
Dit betekent dat het aardewerk van de tegel zichtbaar is bovenop en we kunnen helaas niet garanderen dat dit niet het geval is.

Reinigen. Was betegelde oppervlakken met schoon water of een neutraal schoonmaakmiddel (geen bijtend middel, of op alkalinebasis). Droog af en poets op met een droge stofdoek.We raden geen stoomreinigers of stoomdweilen aan om onze tegels schoon te maken. Stoomreiniging kan elke sealer die dat heeft, verwijderen/ ineffectief maken aangebracht, waardoor de tegels onbeschermd blijven.

Fotografie. Als gevolg van variaties in studiobelichting en printinkten kunnen de in deze brochure afgebeelde kleuren enigszins afwijken van die van de daadwerkelijke tegels. Voordat u uw keuze maakt, is het altijd raadzaam om uw Winchester leverancier te vragen om monsters.

Aansprakelijkheidsbeperking. de fabrikant is niet
aansprakelijk voor de verkeerde installatie van zijn tegels. In geval van claims met betrekking tot de tegels zelf is de aansprakelijkheid van **Ryan's, voor zover dit wettelijk is toegestaan, beperkt tot het**
vervangen van het product of het vergoeden van de kosten van het product en is gevolgschade niet inbegrepen. Claims moeten binnen zeven werkdagen na ontvangst van de tegels worden ingediend. De tegels moeten worden geïnspecteerd voordat deze worden gezet. Claims worden niet behandeld nadat de tegels zijn gezet.

Tot de zetting behoort het aanvaarden van de kwaliteit, kleur, structuur, schakering en afmetingen van de tegels.

de fabrikant garandeert dat de tegels overeenkomen met hun omschrijving en geschikt zijn voor het beoogde gebruik. de fabrikant maakt geen andere uitdrukkelijke of impliciete garanties
met betrekking tot de geschiktheid van de producten voor bepaalde installaties. We geven geen garanties, uitdrukkelijk of impliciet, ten aanzien van slijtagebestendigheid of onderhoudsmaatregelen.

We wijzen u erop dat het gebruik van bepaalde bijtende reinigingsmiddelen kan leiden tot een reactie van de tegels, waarvan het uiterlijk kan veranderen.

Важная информация

Соответствие требованиям. Настенная плитка Winchester не предназначена для напольного покрытия или использования на открытом воздухе. Плитка предназначена только для внутренних стен. Мы не рекомендуем укладывать плитку Winchester на рабочую поверхность, поскольку возможно образование потертостей и царапин, некоторые виды плитки не предназначены для влажных помещений (см. далее).

По возможности, все плитки Winchester производятся в соответствии с Европейским стандартом EN14411.

Размеры. В данной брошюре указаны стандартные размеры; фактические размеры отдельной плитки могут отличаться от указанных в брошюре. Приведенные в качестве справочных в брошюре иллюстрации могут не соответствовать фотографиям плитки в других разделах.

Разные цвета и оттенки
Поверхность плитки Winchester слегка волнистая, что позволяет естественное затенение. Подобная заметная, при этом незначительная разница оттенков между плитками, лепниной и бордюрами означает, что все плитки по-своему индивидуальны, благодаря чему создается красивый глубокий эффект, что придает очарования покрытым такой плиткой помещениям. Кроме того, фон декоративной плитки и подходящей облицовочной плитки также может отличаться.

Перед тем, как выбрать плитку, рекомендуется обратиться к поставщику Winchester за образцами.

Перед укладкой плитки исключительно важно разложить ее на хорошо освещенной поверхности, чтобы убедиться, что все разные оттенки распределены равномерно. После укладки плитки компания не несет ответственности за любые проблемы, возникающие в связи с различными оттенками.

Artisan глянцевые цвета и плитка с кракелюрами. Внимание: цвета глянцевой плитки и плитки с кракелюрами с одним и тем же наименованием могут незначительно отличаться. Внимание: приведенные в качестве справочных иллюстрации могут не соответствовать фотографиям плитки в других разделах.

Глазурь Arcadian/Metropolitan. Обратите внимание: Маловероятно, что поверхность вдоль верхнего края бордюров Torus/Ogee будет покрыта глазурью, в связи с этим мы не даем гарантии что цвет неглазированной основы плитки не будет виден вдоль верхнего края бордюров.

Чистка. Промыть поверхности либо чистой водой либо нейтральным моющим средством (то есть не кислотным и не щелочным). Вытереть насухо и отполировать сухой щеткой. Мы не рекомендуем использовать пароочистители или паровые швабры для очистки плитки. Очистка паром может удалить/сделать неэффективным любой герметик, который была нанесена, оставив плитки незащищенными.

Фотографии. С учетом освещения в студии и типографической краски, цвет плитки на фотографиях, представленных в данной брошюре, может незначительно отличаться от фактического цвета плитки. Перед тем, как выбрать плитку, рекомендуется обратиться к поставщику Winchester за образцами.

Ограничение ответственности
Компания производитель не несет ответственности за дефекты
при установке ее продукции. При возникновении претензий **относительно качества плитки, ответственность компании Ryan's в установленных законом случаях ограничена либо заменой**
товара, либо возмещением его стоимости, и не распространяется на возмещение косвенных убытков. О претензиях необходимо сообщать в течение 7 рабочих дней после получения плитки. Плитку следует проверить до ее установки. После установки плитки претензии не принимаются. Просьба обратить внимание, что установка плитки означает отсутствие претензий к ее качеству, цвету, размерам, текстуре и оттенкам.

Компания производитель гарантирует, что плитка соответствует
ее описанию и пригодна для использования в надлежащих целях. **Компания производитель не предоставляет ни прямых, ни косвенных**
гарантий соответствия или пригодности товара для конкретных видов установки. Мы не обеспечиваем ни прямые, ни косвенные гарантии износоустойчивости. Просьба обратить внимание, что использование определенных моющих средств на кислотной основе может привести к химической реакции и изменению свойств плитки.
